

GNOMES

Block of the Month 2026-2027 - September

Finished block: 15 in.

Technique: Fusible-web applique

Background: Cut 17 in.
Trim to 15 1/2 in.

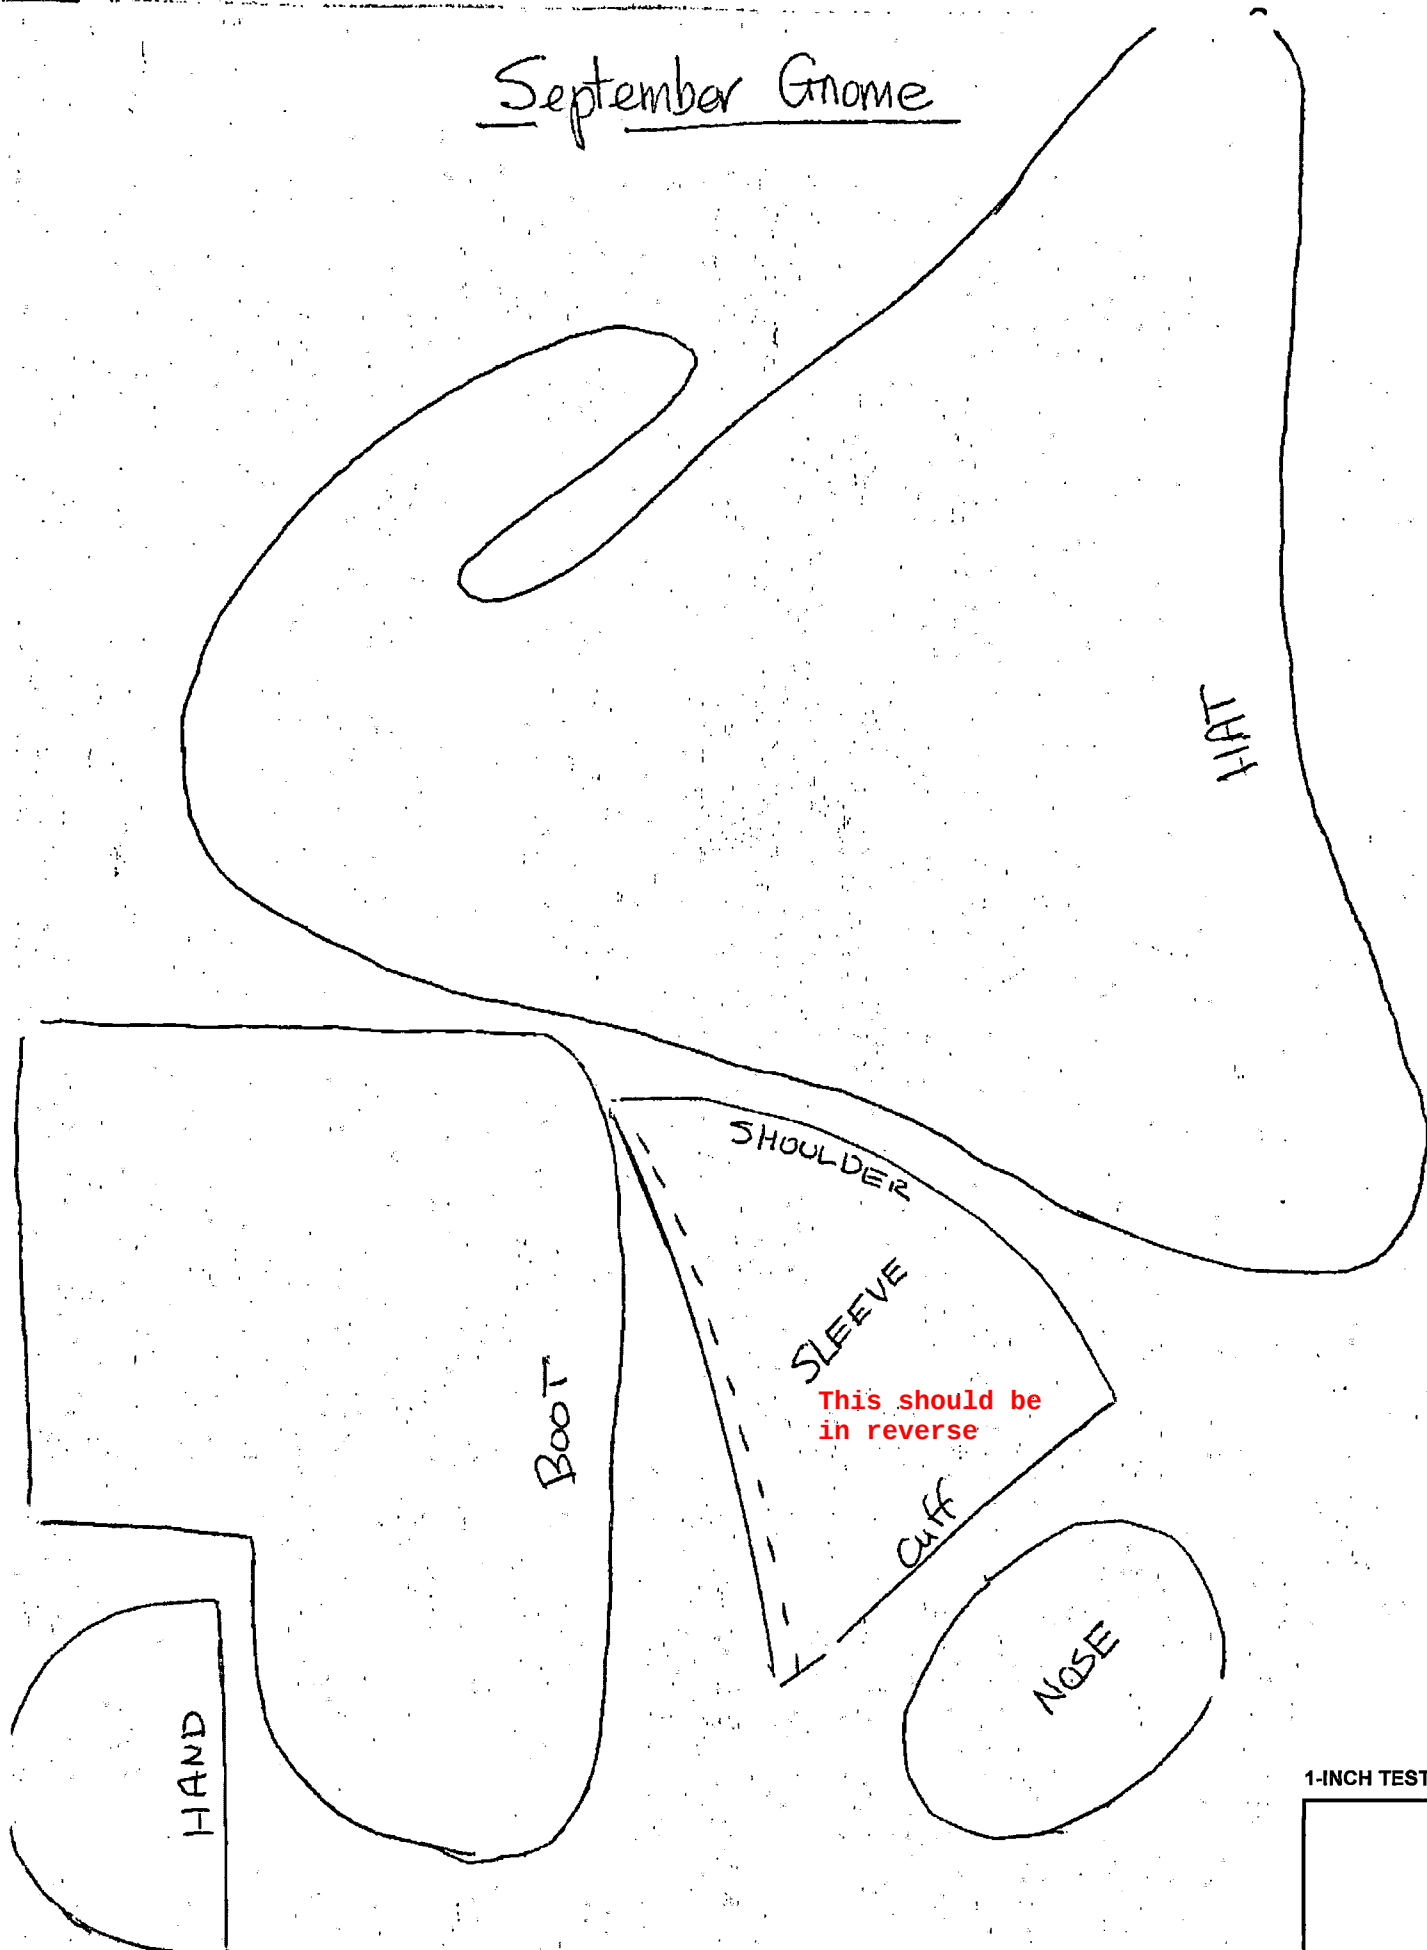

General Instructions

- Cut a 17-inch background square. After applique is complete, trim to 15 1/2 inches square.
- Use a paper-backed fusible web such as Wonder Under or Steam-A-Seam.
- For larger pieces, apply fusible only around the edge to reduce bulk. Leave about a 1/2- to 1-inch fusible border.
- Small pieces may be fused without trimming out the centre.
- Templates are reversed and ready for tracing and fusing.
- After fusing, secure applique edges with a zigzag or blanket stitch.
- Embellish as desired.

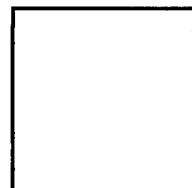

IMPORTANT - TEMPLATE PRINTING

Print template pages at Actual Size / 100%. Do not select Fit, Shrink, or Scale to Fit.
Measure the 1-inch test square before cutting fabric.
